ベーシック・インカム：
自由な社会と健全な経済のためのラディカルな提案
Basic Income: A Radical Proposal for a Free Society and a Sane Economy

By Phillipe Van Parijs and Yannick Vanderborght

It may sound crazy to pay people an income whether or not they are working or looking for work. But the idea of providing an unconditional basic income to every individual, rich or poor, active or inactive, has been advocated by such major thinkers as Thomas Paine, John Stuart Mill, and John Kenneth Galbraith. For a long time, it was hardly noticed and never taken seriously. Today, with the traditional welfare state creaking under pressure, it has become one of the most widely debated social policy proposals in the world. Philippe Van Parijs and Yannick Vanderborght present the most comprehensive defense of this radical idea so far, advocating it as our most realistic hope for addressing economic insecurity and social exclusion in the twenty-first century.

WILEY-BLACKWELL

組織コミュニケーション国際百科事典 全4巻
The International Encyclopedia of Organizational Communication 4 volume set

Wiley Blackwell-ICA International Encyclopedias of Communication

By Craig Scott and Laurie Lewis

The International Encyclopedia of Organizational Communication offers a comprehensive collection of entries contributed by international experts on the origin, evolution, and current state of knowledge of all facets of contemporary organizational communication.
Founded in 1994, Berghahn Books is an independent publisher of distinguished scholarly books and journals in the humanities and social sciences. Its program, which includes close to 40 journals and over 120 new titles a year, spans Anthropology, Migration & Refugee Studies, Geography, History, and Film Studies.

A peer-review press, Berghahn is committed to the highest academic standards and seeks to enable innovative contributions to the scholarship in its fields of specialty. With offices in New York and Oxford, Berghahn maintains close links to the academic communities of Europe, North America, and all other parts of the world, pursuing a mission to advance quality research across national and disciplinary boundaries.

Anthropology and Public Service: The UK Experience
Edited by Jeremy MacClancy

These days an increasing number of social anthropologists do not find employment within academia. Rather, many find jobs with commercial organizations or in government, where they run research teams and create policy. These scholars provide a much-needed social dimension to government thinking and practice. Anthropology and Public Service shows how anthropologists can set new agendas and revise old ones in the public sector. Written for scholars and students of various social sciences, these chapters include discussions of anthropologists’ work with the Department for International Development, the Ministry of Defence, the UK Border Agency, and the Cabinet Office, and their contributions to prison governance.

Breaking Rocks: Music, Ideology and Economic Collapse, from Paris to Kinshasa
Dislocations, 19
By Joe Trapido

Based on fieldwork in Kinshasa and Paris, Breaking Rocks examines patronage payments within Congolese popular music, where a love song dedication can cost 6,000 dollars and a simple name check can trade for 500 or 600 dollars. Tracing this system of prestige through networks of musicians and patrons – who include gangsters based in Europe, kleptocratic politicians in Congo, and lawless diamond dealers in northern Angola – this book offers insights into ideologies of power and value in central Africa’s troubled post-colonial political economy, as well as a glimpse into the economic flows that make up the hidden side of the globalization.
Collaborative Intimacies in Music and Dance: Anthropologies of Sound and Movement

Dance & Performance Studies, 10

Edited by Evangelos Chrysagis and Panas Karampampas

Across varied domains, music and dance both emerge from and give rise to intimate collaboration. This theoretically rich collection takes an ethnographic approach to understanding the collaborative dimension of sound and movement in everyday life.

Footprints in Paradise: Ecotourism, Local Knowledge, and Nature Therapies in Okinawa

New Directions in Anthropology, 40

By Andrea E. Murray

Footprints in Paradise explores how sense of place in Okinawa is transformed as language, landscapes, and wildlife are reconstituted as treasured and vulnerable resources.

Grace After Genocide: Cambodians in the United States

By Carol A. Mortland

Grace after Genocide is the first comprehensive ethnography of Cambodian refugees, charting their struggle to transition from agrarian life to survival in post-industrial America, while still maintaining their Cambodian identities.
Let Them Not Return: Sayfo—The Genocide Against the Assyrian, Syriac, and Chaldean Christians in the Ottoman Empire

War and Genocide, 26

Edited by David Gaunt, et al.

While the Armenian genocide is today widely recognized, the broader context of Ottoman violence against minority groups—including the indigenous, largely Christian Assyrians—are less well known. This volume is the first scholarly edited collection focused on the Assyrian genocide, or “sayfo.”

Mary Douglas: Explaining Human Thought and Conflict

By Perri 6 and Paul Richards

This valuable book introduces Mary Douglas’s theories, and outlines the ways in which her work is of continuing importance for the future of the social sciences.

Shaping Taxpayers: Values in Action at the Swedish Tax Agency

By Lotta Bjorklund Larsen

How do you make taxpayers comply? This ethnography is a vivid account of one of the most esteemed Swedish bureaucracies—the Swedish Tax Agency. Shaping Taxpayers focuses on how fiscal strategies and relationships, as well as diverse knowledge claims—legal, economic, cultural—compete to shape taxpayer behaviour.
**Sisters in Arms: Militant Feminisms in the Federal Republic of Germany Since 1968**

Monographs in German History, 38

By Katharina Karcher

Drawing on a wealth of new source material, Sisters in Arms gives a bracing account of how radical feminism was enacted by key German leftist organizations, such as the infamous Red Army Faction and June 2 Movement.

---

**Starry Nights: Critical Structural Realism in Anthropology**

Loose Can(N)Ons, 1

By Stephen P. Reyna

Starry Nights envisions a ‘big tent’ anthropology that is vast in scope, addressing social, cultural and biological domains by developing a scientific realism for analyzing different fields, a structure for unifying them, and a critical attitude for improving them.

---

**The Forest People Without a Forest: Development Paradoxes, Belonging and Participation of the Baka in East Cameroon**

By Glory M. Lueong

This book explores how the Baka, who live in Eastern Cameroon, assert forms of belonging in order to participate in development interventions, and how community life is shaped and reshaped through these interventions.
The Routledge Handbook of Transport Economics

Edited by Jonathan Cowie and Stephen Ison

Featuring contributions from world-leading scholars and practitioners from across the globe, all of the chapters within this book are written from a practical perspective: theory is applied and developed using real world examples. The book examines concepts, issues, ideas and practicalities of transport provision in five key topic areas: Public Transport; Public Transport Reform; Economic Development and Transport Modelling; Transport and the Environment; Freight Transport.

De Fina, Anna et al. (ed.)
Diversity and Super-Diversity: Sociocultural Linguistic Perspectives
(Georgetown University Round Table on Languages & Linguistics Series)
256 pages 2017.04 Georgetown U.P.
Hardback 9781626164215 US$99.95
Paperback 9781626164222 US$49.95

Sociocultural linguistics has long conceived of languages as well-bounded, separate codes. But the increasing diversity of languages encountered by most people in their daily lives challenges this conception. This volume takes stock of the increasing diversity of linguistic phenomena and more.

Holmes, Janet & Wilson, Nick
An Introduction to Sociolinguistics, 5th ed
(Learning About Language)
512 pages 2017.02 Routledge
Hardback 9781138845008 £80.00
Paperback 9781138845015 £25.99

In this best-selling introductory textbook, the authors examine the role of language in a variety of social contexts, considering both how language works and how it can be used to signal and interpret various aspects of social identity. Divided into three sections, this book explains basic sociolinguistic concepts in the light of classic approaches as well as introducing more recent research.

The Routledge Handbook of Maritime Trade Around Europe 1300–1600: Commercial Networks and Urban Autonomy

Edited by Wim Blockmans, et al.

The Routledge Handbook of Maritime Trade around Europe 1300–1600 explores the links between maritime trading networks around Europe, from the Mediterranean and the Atlantic to the North and Baltic Seas. This volume explores networks' economic functions alongside their intercultural exchanges, contacts and practical arrangements in ports on the European coasts.

The Invention of Humanity: Equality and Cultural Difference in World History
672 pages  2017.02  Harvard U.P.
Hardback  9780674971967  US$49.95
Drawing on the views of a global mix of thinkers—Homer, Confucius, Herodotus, the medieval Muslim scholar Ibn Khaldun, the Haitian writer Antenor Firmin, the Filipino nationalist Jose Rizal, and more—the Invention of Humanity surveys the great civilizational frontiers of history, from the interaction of nomadic and sedentary societies in ancient Eurasia and Africa, to Europeans’ first encounters with the indigenous peoples of the New World, to the Enlightenment invention of universal “modern equality.”
**ROUTLEDGE**

**Women in the Medieval World 4 volume set**

*Critical Concepts in Women’s History*

Edited by Cordelia Beattie

This new collection of major works from Routledge addresses the different ways in which medieval women have been studied by looking at religious and secular women, women according to their stage in the life cycle, and according to their social status. Important theoretical issues are also tackled, such as the applicability of terms such as misogyny, anti-feminism, and feminism, the cultural construction of the body, and the periodization of women’s history.

**DUKE UNIVERSITY PRESS**

**Stuart Hall’s Voice: Intimations of an Ethics of Receptive Generosity**

By David Scott

In these series of letters—which David Scott wrote to Stuart Hall following his death, Scott characterizes Hall’s voice and his practice of speaking, listening, and generosity as the foundational elements of Hall’s intellectual work.

**We are Data: Algorithms and the Making of Our Digital Selves**

Cheney-Lippold, John

Algorithms create and recreate us, using our data to assign and reassign our gender, race, sexuality, and citizenship status. They can recognize us as celebrities or mark us as terrorists. In this era of ubiquitous surveillance, contemporary data collection entails more than gathering information about us. Entities like Google, Facebook, and the NSA also decide what that information means, constructing our worlds and the identities we inhabit in the process. Through a series of entertaining and engaging examples, John Cheney-Lippold draws on the social constructions of identity to advance a new understanding of our algorithmic identities.

Resistance Culture Jamming: Activism and the Art of Cultural Dehumanization

Delaure, Marilyn et al. (ed.)

(eds., v.10)

Adam Hodgkin thinks Twitter is much more than a mere social media tool—it is a terrain ripe for a conceptual and theoretical analysis of our use of digital language. Searle's speech act theories provide a framework for illuminating how Twitter membership arises, how users of Twitter relate to each other by following, and how increasingly complex content is conveyed with tweets. Using this framework, Hodgkin places language, action, intention, and responsibility at the core of the digital culture and the digital institutions that we are constructing.

Scott, John

Social Network Analysis, 4th ed

With a new chapter on social media, new worked examples, and better addressing the needs of the newcomer (whilst still remaining authoritative), this Fourth Edition continues to be an invaluable resource in introducing readers to the theories and techniques of social network analysis.

This new companion examines the intersections of media studies and digital humanities. Although these two fields are both well established, their overlaps have not been examined in depth. This comprehensive collection fills that gap, giving students, scholars, and media studies practitioners a cutting-edge guide to understanding the array of methodologies and projects operating at the intersection of digital humanities, computing, and culture.

**Nobles and Nobility: The History of an Institution in Europe**  
*3 volume set*  
*International Library of Historical Studies, 89*

By Michael Sayer

In feudal and early modern society, the nobility was a force of major importance. In this three-volume work, the author provides a survey of all the most significant primary sources relating to the status of nobility in Europe from Roman times through the Medieval period and beyond, setting them within the broader historical context of the time.

This book provides a unique backdrop of how native or migrant Muslims interact with communities of other faiths have led to the contemporary treatment of Islam and the Muslim communities in these nations. This book is based on the theme of Islam’s presence and development in the Asia-Pacific region, and the concerns faced by Muslims in the region.

Widows in European Economy and Society, 1600–1920

Moring, Beatrice & Wall, Richard

A deeply researched and geographically wide-ranging study that reveals that widows were much more economically and socially active than is often thought.

Successful Aging as a Contemporary Obsession: Global Perspectives

McCabe, Jane

Aging in America: A Cultural History

Samuel, Lawrence R.

This book takes a chronological approach, from prenatal development to adolescence, looking at social, cognitive, emotional and physical aspects of development, while illustrating how culture plays a constitutive role in children's development.

Cohabitation Nation? Gender, Class, and the Remaking of Relationships

Sassler, Sharon & Miller, Amanda

Living together is a typical romantic rite-of-passage in the United States today. In fact, Census data shows a 37 per cent increase of couples that choose to commit to and live with one another, foregoing marriage. This book provides us with an inside view of how cohabiting relationships play out before and after they move in together.

The End of Karma: Hope and Fury Among India's Young

Sengupta, Somini

A penetrating, personal look at contemporary India—the world's largest democracy at a moment of transition.

The Zero Trimester: Pre-Pregnancy Care and the Politics of Reproductive Risk

Waggoner, Miranda

Child Development: Understanding a Cultural Perspective

Samuel, Lawrence R.

This book takes a chronological approach, from prenatal development to adolescence, looking at social, cognitive, emotional and physical aspects of development, while illustrating how culture plays a constitutive role in children's development.

Sold People: Traffickers and Family Life in North China

O'Rourke, Harmony

This book takes a chronological approach, from prenatal development to adolescence, looking at social, cognitive, emotional and physical aspects of development, while illustrating how culture plays a constitutive role in children's development.

The Routledge Companion to Cultural Property

Edited by Jane Anderson and Haidy Geismar

The Routledge Companion to Cultural Property contains new contributions from scholars working at the cutting edge of cultural property studies, bringing together diverse academic and professional perspectives to develop a coherent overview of this field of enquiry. The global range of authors use international case studies to encourage a comparative understanding of how cultural property has emerged in different parts of the world and continues to frame vital issues of national sovereignty, the free market, international law, and cultural heritage.

Routledge Handbook of Physical Cultural Studies

Edited by Michael Silk, et al.

Featuring chapters written by world-leading scholars, this handbook examines the most important themes and issues within PCS, exploring the active body through the lens of class, age, gender, sexuality, race, ethnicity, (dis)ability, medicine, religion, space and culture. Each chapter provides an overview of the state of knowledge in a particular subject area, while also considering possibilities for developing future research.

Urbanization in China

Edited by Margaret Crawford, et al.

The construction of completely new cities and the dramatic redevelopment of existing urban centers have completely transformed the Chinese landscape. This urban revolution has generated an astonishing number and size of cities, undertaken with little thought for environmental and social consequences. Scholars striving to understand and analyze these remarkable and often contradictory urban phenomena have contributed to a large English language literature in multiple disciplines (geography, sociology, political science, urban planning, architecture, anthropology, and history).

An Essay on the Principle of Population
(Norton Critical Editions)
352 pages  2017.03  W.W. Norton
Paperback  9781324000556  US$18.50

The world’s population is now 7.4 billion people. As we stand witness to a possible reversal of modernity’s positive trends, Thomas Malthus’s pessimism is worth full reconsideration.

Murphy, Michelle
The Economization of Life
216 pages  2017.05  Duke U.P.
Hardback  9780822363347  US$84.95
Paperback  9780822363453  US$23.95

Michelle Murphy examines the ways in which efforts at population control since World War II have tied reproduction to neoliberal capitalism, showing how data collection practices have been used to quantify the value of a human life in terms of its ability to improve the nation-state’s gross domestic product.

The Sociology of Food: Eating and the Place of Food in Society
312 pages  2017.02  Bloomsbury Academic
Hardback  9781472586209  £85.00
Paperback  9781472586216  £21.99

Divided into two parts, this book begins by exploring the continuities and changes in the modern diet. From the effect of globalization on food production and supply, to evolving cultural responses to food—including cooking and eating practices, the management of consumer anxieties, and concerns over obesity and the medicalization of food—the first part examines how changing food practices have shaped and are shaped by wider social trends. The second part provides an overview of the emergence of food as an academic focus for sociologists and anthropologists. Revealing the obstacles that lay in the way of this new field of study, Poulain shows how the discipline was first established and explains its development over the last forty years.

The Routledge Handbook of Global Child Welfare

Routledge International Handbooks

Edited by Pat Dolan and Nick Frost

The Routledge Handbook of Global Child Welfare provides a compelling account of child welfare, grounded in the latest theory, policy and practice. Drawing on eminent international expertise, the book offers a coherent and comprehensive overview of the policies, systems and practices that can deliver the best outcomes for children. It considers the challenges faced by children globally, and the difference families, services and professionals can make.

The Policy Test: Five Parameters for Evaluating Public Policy

By P. Hutchinson and R. Read

In The Policy Test, philosopher Phil Hutchinson argues that we need to move beyond mere evidence-based politics to appraise policy within a much wider evaluative framework, one that encourages a much deeper reflection of the issues. He proposes five fundamental parameters by means of which all public policy positions ought to be assessed: precaution, evidence, political economy, asymmetry and framing.

Two Weeks Every Summer: Fresh Air Children and the Problem of Race in America

Shearer, Tobin Miller

This book is a concise explanation of what welfare is, and why it is important. With examples from the UK, Europe, North America and Australia the book explores how the principles of welfare are applied across the world.

The Best Possible Immigrants: International Adoption and the American Family

Winslow, Rachel Rains

Arguments for Welfare: The Welfare State and Social Policy

Spicker, Paul

War and the Art of Governance: Consolidating Combat
Success into Political Victory
344 pages 2017.03 Georgetown U.P.
Hardback 9781626164093 US$64.95
Paperback 9781626164109 US$32.95

Success in war ultimately depends on the consolidation of political order. In this book, the author argues that the steps needed to consolidate a political order are not separate from war but they are instead an essential component of war and victory.

Norse Mythology

By Neil Gaiman

Introducing an instant classic—master storyteller Neil Gaiman presents a dazzling version of the great Norse myths.

Neil Gaiman has long been inspired by ancient mythology in creating the fantastical realms of his fiction. Now he turns his attention back to the source, presenting a bravura rendition of the great northern tales.

In Norse Mythology, Gaiman stays true to the myths in envisioning the major Norse pantheon: Odin, the highest of the high, wise, daring, and cunning; Thor, Odin’s son, incredibly strong yet not the wisest of gods; and Loki—son of a giant—blood brother to Odin and a trickster and unsurpassable manipulator.

Gaiman fashions these primeval stories into a novelistic arc that begins with the genesis of the legendary nine worlds and delves into the exploits of deities, dwarfs, and giants. Once, when Thor’s hammer is stolen, Thor must disguise himself as a woman—difficult with his beard and huge appetite—to steal it back. More poignant is the tale in which the blood of Kvasir—the most sagacious of gods—is turned into a mead that infuses drinkers with poetry. The work culminates in Ragnarok, the twilight of the gods and rebirth of a new time and people.

Edited by ProQuest

Published annually by the federal government since 1878, The Statistical Abstract of the United States is the best known statistical reference publication in the United States, and perhaps the world. You’ll find it behind nearly every reference desk in U.S. libraries as the authoritative go-to source. Librarians value the Statistical Abstract as both an answer book and a guide to statistical sources. As a comprehensive collection of statistics on the social, political, and economic conditions of the United States, it is a snapshot of America and its people.

In the spring of 2011, the Census Bureau announced that the edition that year would be the last one produced at government expense. Despite protests from librarians and journalists and despite petitions to Congress, the Census Bureau unit that published the Statistical Abstract was eliminated. Its elimination resulted not from a decline in the popularity or perceived value of statistical compilations, but from the need to reduce agency spending while supporting new and existing data collection efforts.

ProQuest has now taken on responsibility for updating and releasing this publication, the most used statistical reference tool in U.S. libraries. We bring to this task 35 years experience acquiring, abstracting, and indexing federal government statistical publications and tables.

**日本における幸福とよい暮らし**

**Happiness and the Good Life in Japan**

**Japan Anthropology Workshop**

**Wolfram Manzenreiter** and **Barbara Holthus**

This book, based on extensive fieldwork and original research, considers how specific groups of Japanese people view and strive for the pursuit of happiness. It examines the importance of relationships, family, identity, community and self-fulfilment, amongst other factors. The book demonstrates how the act of balancing social norms and agency is at the root of the growing diversity of experiencing happiness in Japan today.

着物の社会生活：日本のファッション今と昔
The Social Life of Kimono: Japanese Fashion Past and Present
Dress, Body, Culture

By Sheila Cliffe

The kimono is an iconic garment with a history as rich and colourful as the textiles from which it is crafted. Deeply associated with Japanese culture both past and present, it has often been thought of as a highly gendered, rigidly traditional and unchanging national costume. This book challenges that perception, revealing the nuanced meanings and messages behind the kimono from the point of view of its wearers and producers, many of whom—both men and women—see the garment as a vehicle for self-expression.

英訳『東電福島原発事故 総理大臣として考えたこと』
My Nuclear Nightmare: Leading Japan through the Fukushima Disaster to a Nuclear-Free Future

By Naoto Kan / Translated by Jeffrey S. Irish

Author Kan offers a fascinating day-by-day account of his actions in the harrowing week after the earthquake struck. He records the anguished decisions he had to make as the scale of destruction became clear and the threat of nuclear catastrophe loomed ever larger—decisions made on the basis of information that was often unreliable. For example, frustrated by the lack of clarity from the executives at Tepco, the company that owned the power plant, Kan decided to visit Fukushima himself, despite the risks, so he could talk to the plant’s manager and find out what was really happening on the ground. As he details, a combination of extremely good fortune and hard work just barely prevented a total meltdown of all of Fukushima’s reactor units, which would have necessitated the evacuation of the thirty million residents of the greater Tokyo metropolitan area.

Partnership Within Hierarchy: The Evolving East Asian Security Triangle

By Sung Chull Kim

This book examines, in depth, the troubled evolution of the US–Japan–South Korea security triangle from the Cold War period to the present time. Referencing a voluminous amount of declassified documents in three different languages, Sung Chull Kim, through six case studies, delves into the common questions arising in different historical periods, such as who should pay costs, what to commit, and why.

Japan’s Security Renaissance: New Policies and Politics for the Twenty-First Century

Contemporary Asia in the World

By Andrew L. Oros

Since the end of the Cold War, and especially since the rise of Prime Minister Shinzo Abe, Japan’s military capabilities have resurged. In this analysis of Japan’s changing military policy, Andrew L. Oros shows how a gradual awakening to new security challenges has culminated in the multifaceted “security renaissance” of the past decade.

日本における異文化コミュニケーション
Intercultural Communication in Japan: Theorizing Homogenizing Discourse

Routledge Contemporary Japan

Edited by Satoshi Toyosaki and Shinsuke Eguchi

This book explores the discursive systems of cultural identities that regenerate the illusion of Japan as a homogeneous nation. Contributors from a variety of disciplines and methodological approaches investigate the ways in which Japan’s homogenizing discourses are challenged and modified by counter-homogeneous message systems.

Multilingual Subjects: On Standard English, its Speakers, and Others in the Long Eighteenth Century

By Daniel J. DeWispelare

Daniel DeWispelare documents how many varieties of English became sidelined as 'dialects' as Standard English became dominant throughout an ever-expanding English-speaking world, while asserting the importance of both multilingualism and dialect writing to eighteenth-century anglophone culture.
