Routledge Handbook of Japanese Foreign Policy

Edited by Mary M. McCarthy

From a nuclear North Korea and territorial disputes in the East China Sea, to global climate change and Asia-Pacific free trade agreements, Japan is at the center of some of the most challenging issues that the world faces today. Taking an interdisciplinary approach, comprising contributions from the fields of politics, sociology, history, and gender studies, this handbook creates a comprehensive and innovative overview of the field, investigating the widening variety of interests, sometimes competing, that constitute Japanese foreign policy.

ブレグジットに対するヨーロッパの反応
Europe’s Brexit: EU Perspectives on Britain’s Vote to Leave

By Tim Oliver

This book offers an in-depth, ground-up analysis of the attitudes and opinions of the rest of Europe towards Brexit. Covering the period from David Cameron’s attempt to negotiate EU reform prior to the Referendum and closing with the triggering of Article 50, the book will chart the individual member states’ response to, coverage of, and political fall-out from, the UK’s referendum process and result. The aim is to provide a backdrop for the future relations of those states with the UK and their likely positions during the negotiations.
The Routledge International Handbook of Island Studies: A World of Islands

Edited by Godfrey Baldacchino

This International Handbook of Island Studies is a global, research-based and pluridisciplinary overview of the study of islands. Its chapters deal with the contribution of islands to literature, social science and natural science, as well as other applied areas of inquiry. The collated expertise of interdisciplinary and international scholars offers unique insights: individual chapters dwell on geomorphology, zoology and evolutionary biology; the history, sociology, economics and politics of island communities; tourism, wellbeing and migration; as well as island branding, resilience and ‘commoning’.

Routledge Handbook of Sustainability Indicators

Edited by Simon Bell and Stephen Morse

This handbook provides researchers and students with an overview of the field of sustainability indicators (SIs) as applied in the interdisciplinary field of sustainable development.

Routledge Handbook of Environmental Displacement and Migration

Edited by Francois Gemenne and Robert McLeman

The Routledge Handbook of Environmental Displacement and Migration provides a state-of-the-science review of research on how environmental variability and change influence current and future global migration patterns and, in some instances, trigger large-scale population displacements.

A leading social critic recounts capitalism’s finest hour and shows us how we might achieve it once again. Like it or not, sometimes we need to put a monetary value on people’s lives. In the past, government agencies used the financial “cost of death” to monetize the mortality risks of regulatory policies, but this method vastly undervalued life. Pricing Lives tells the story of how the government came to adopt an altogether different approach—the value of a statistical life, or VSL—and persuasively shows how its more widespread use could create a safer and more equitable society for everyone.

Matthew Powers analyzes the growing role NGOs play in shaping—and sometimes directly producing—international news. Through an unprecedented glimpse into NGOs’ newsmaking efforts, Powers portrays the possibilities and limits of NGOs as media makers, with important implications for the intersections of journalism and advocacy.
Bilateral economic diplomacy is an increasingly popular method of ensuring both commercial and broader economic interests. In this Handbook, over 30 leading experts from developed and developing countries, industrial nations and emerging economies have come together to form a global view of economic diplomacy.

The Doreen Massey Reader
Economic Transformations

Edited by Brett Christophers, et al.

Doreen Massey (1944–2016) was one of the most influential geographers of the late-twentieth and early-twenty first centuries. Her ideas on space, region, identity, ethics and capital transformed the field itself, while also attracting a wide audience in sociology, planning, political economy, cultural studies, gender studies, and beyond. This collection of Massey’s writings brings together for the first time her formative contributions, showcasing the continuing relevance of her ideas to current debates on financialization, globalization, immigration and nationalism, among other topics. With introductions and explanatory notes from the editors, the collection provides an unrivalled introduction to the range and depth of Massey’s contributions, which are sure to remain an essential touchstone for social theory and critical geography for generations to come.

Doreen Massey: Critical Dialogues
Economic Transformations

Edited by Marion Werner, et al.

These specially commissioned essays, many from some of Doreen Massey’s long-time interlocutors and collaborators, interrogate both the generative sources and the potential of Massey’s remarkably wide-ranging and influential oeuvre. They provide readers with an unparalleled assessment of the political and social context that gave rise to many of Massey’s key ideas and contributions—such as spatial divisions of labour, power-geometries, and a “global sense of place”—and how they subsequently travelled, and were translated and transformed, both within and outside of academia.

Handbook on Participatory Governance
Handbooks of Research on Public Policy

Edited by Hubert Heinelt

This Handbook concentrates on democracy beyond the traditional governmental structures to explore the full scope of participatory governance. It argues that it is a political task to turn the shift from government to governance into participatory forms, and reflects on the notion of democracy and participatory governance, and how they can relate to each other.

アイデンティティ・クライシス：
2016年大統領選挙とアメリカの価値のための闘い
Identity Crisis: The 2016 Presidential Campaign and the Battle for the Meaning of America

By John Sides, et al.

Identity Crisis takes readers from the bruising primaries to an election night whose outcome defied the predictions of the pollsters and pundits. The book shows how fundamental characteristics of the nation and its politics—the state of the economy, the Obama presidency, and the demographics of the political parties—combined with the candidates’ personalities and rhetoric to produce one of the most unexpected presidencies in history. Early on, the fundamental characteristics predicted an extremely close election. Identity Crisis reveals how Trump’s victory was foreshadowed by changes in the Democratic and Republican coalitions that were driven by people’s racial and ethnic identities. The campaign then reinforced and exacerbated those cleavages as it focused on issues related to race, immigration, and religion. The result was an epic battle not just for the White House but about what America is and should be.

Envy in Politics
(Princeton Studies in Political Behavior)
248 pages 2018.04 Princeton U.P.

Hardback 9780691178653 $4,100

Why do governments underspend on policies that would make their constituents better off? Why do people participate in contentious politics when they could reap benefits if they were to abstain? In Envy in Politics, Gwyneth McClendon contends that if we want to understand these and other forms of puzzling political behavior, we should pay attention to envy, spite, and the pursuit of admiration—all manifestations of our desire to maintain or enhance our status within groups.

(America in the World)
336 pages 2018.02 Princeton U.P.

Hardback 9780691176062 $4,690

The Helsinki Final Act was a watershed of the Cold War. Signed by thirty-five European and North American leaders at a summit in Finland in the summer of 1975, the agreement presented a vision for peace based on common principles and cooperation across the Iron Curtain. The Final Act is the first in-depth account of the diplomatic saga that produced this historic agreement.

Direct Democracy: A Double-Edged Sword
200 pages 2018.02 Lynne Rienner

Hardback 9781626377141 US$72.00

Direct democracy typically is lauded for putting power in the hands of the people. But is it really as democratic as it seems? To what extent, and in what circumstances, is it less about citizen power and more about external influences seeking to manipulate outcomes? Addressing these issues, Shauna Reilly draws on and compares case studies of referendums, recall elections, and initiatives around the world to investigate the complex realities of direct democracy in action.

The Opinion of Mankind: Sociability and the Theory of the State from Hobbes to Smith
280 pages 2018.02 Princeton U.P.

Hardback 9780691178882 $6,030

Recovering David Hume and Adam Smith’s long-underappreciated contributions to the history of political thought, The Opinion of Mankind considers how, following Thomas Hobbes’s epochal intervention in the mid-seventeenth century, subsequent thinkers grappled with explaining how the state came into being, what it fundamentally might be, and how it could claim rightful authority over those subject to its power.

328 pages 2018.06 Princeton U.P.

Hardback 9780691180557 $4,100

The Declaration of Independence proclaims equality as a foundational American value. However, Unequal and Unrepresented finds that political voice in America is not only unequal but also unrepresentative. Those who are well educated and affluent carry megaphones. The less privileged speak in a whisper. Relying on three decades of research and an enormous wealth of information about politically individuals and organizations, the authors offer a concise synthesis and update of their groundbreaking work on political participation.

*Nation Building* presents bold new answers to an age-old question. Why is national integration achieved in some diverse countries, while others are destabilized by political inequality between ethnic groups, contentious politics, or even separatism and ethnic war? Traversing centuries and continents from early nineteenth-century Europe and Asia to Africa from the turn of the twenty-first century to today, Andreas Wimmer delves into the slow-moving forces that encourage political alliances to stretch across ethnic divides and build national unity.

Warning that the era of globalization is witnessing not the disappearance of borders but a return to them, this book analyzes and explains why borders have become a very topical subject in both domestic and international affairs today.

From India to Turkey, from Poland to the United States, authoritarian populists have seized power. Two core components of liberal democracy individual rights and the popular will are at war, putting democracy itself at risk. In plain language, Yascha Mounk describes how we got here, where we need to go, and why there is little time left to waste.

Mary Murphy offers a detailed and in-depth analysis of Northern Ireland’s relationship with the EU; the role the EU has played in rebuilding the region after the Troubles; and the challenges and opportunities that Brexit might offer Northern Ireland both in terms of its fragile politics and economy; as well as future Brexit deals that might have to be done with the border between the Irish Republic and Northern Ireland.

Central bankers have emerged from the financial crisis as the third great pillar of unelected power alongside the judiciary and the military. They pull the regulatory and financial levers of our economic well-being, yet unlike democratically elected leaders, their power does not come directly from the people. Unelected Power lays out the principles needed to ensure that central bankers, technocrats, regulators, and other agents of the administrative state remain stewards of the common good and do not become overmighty citizens.

What is the best possible society? How would its rulers govern and citizens behave? In an era when political idealism seems a relic of the past, these questions are more urgent than ever. Taking seriously Plato’s claim that in an ideal society philosophers rule, Jonny Thakkar offers a daring experiment to breathe life into our political present.

The volume offers a close and innovative examination of Marx’s ideas on post-Hegelian philosophy, alienated labour, the materialist conception of history, research methods, the theory of surplus-value, working-class self-emancipation, political organization and revolutionary theory. From this emerges ‘another Marx’, a thinker very different from the one depicted by so many of his critics and ostensible disciples.

African Actors in International Security: Shaping Contemporary Norms
310 pages  2018:05  Lynne Rienner
Hardback  9781626376960  US$79.95
What impact have African actors had on perceptions of and responses to current international security challenges? Are there international peace and security norms with African roots? How can actors that lack the power and financial resources of Western states help to shape prevailing conceptions of appropriate behavior in international politics? Addressing these questions, the authors of African Actors in International Security identify and explore the diverse pathways by which African governments, IGOs, NGOs, and individuals can and do influence the normative structure of contemporary international relations.

Price of Prestige: Conspicuous Waste in International Relations
232 pages  2018:02  Univ. of Chicago Pr.
Hardback  9780226433202  ¥6,030
In The Price of Prestige, Gilady shows how many seemingly wasteful government expenditures that appear to contradict the laws of demand actually follow the pattern for what are known as Veblen goods, or positional goods for which demand increases alongside price, even when cheaper substitutes are readily available. From flashy space programs to costly weapons systems a country does not need and cannot maintain to foreign aid programs that offer little benefit to recipients, these conspicuous and strategically timed expenditures are intended to instill awe in the observer through their wasteful might.

International Relations of the Chinese Empire: Diplomacy, Trade and Administration in Imperial China 5-volume set

2,584 pages 2018:05 I.B. Tauris
Hardback 9781784531331 £450.00

Coverage includes the central and provincial government of the Qing Empire, the fiscal position of the Chinese state, international trade, the position of foreigners in China’s economy, opium imports, the Inspectorate of Customs, the railways, and an examination of the guild system that underpinned the organization of commerce in China. The three volumes of International Relations of the Chinese Empire analyse the history of China’s relations with the West in the nineteenth century. Key issues include the increase in foreign control over China and the attempts of the Chinese government to respond, the rise of Japan in Asia, and the final demise of the Qing Empire. With a new introduction by leading contemporary scholar Professor Michael Dillon, the set forms essential reading for anyone seeking to understand economic and political relations between China and the West in the nineteenth century.

In this volume, Olivier Schmitt presents detailed case-study analysis of several US allies in the Gulf War, the Kosovo campaign, the Iraq War, and the war in Afghanistan. He also includes a broader comparative analysis of 204 junior partners in various interventions since the end of the Cold War. This analysis bridges a gap in previous studies about coalition warfare, while also contributing to policy debates about a recurring defense dilemma.

In March 2012, at a meeting convened by the recently reelected Russian president Vladimir Putin, Minister of Defense Serdyukov informed Mr. Putin that a plan was being prepared for “the development of weapons based on new physical principles: radiation, geophysical wave, genetic, psychophysical, etc.” Subsequently, in response to concerns expressed both in Russia and abroad, the Russian government deleted the statement from the public transcript of the meeting. But the question remains: Is Russia developing an offensive biological warfare program?

A City Mismanaged: Hong Kong’s Struggle for Survival

By Leo F. Goodstadt

A City Mismanaged traces the collapse of good governance in Hong Kong, explains its causes, and exposes the damaging impact on the community’s quality of life. Individual chapters look at the most shocking examples of mismanagement: the government’s refusal to implement the Basic Law in full; official reluctance to halt the large-scale dilapidation of private sector homes into accommodation unfit for habitation; and ministerial toleration of the rise of new slums. Mismanagement of economic relations with Mainland China is shown to have created severe business losses. This book offers a unique and very powerful account of Hong Kong’s struggle to survive.

Carving Up the Globe: An Atlas of Diplomacy

By Malise Ruthven

Where do you draw the line? In the context of geopolitics, much hinges on the answer to that question. For thousands of years, it has been the work of diplomats to draw the lines in ways that were most advantageous to their leaders, fellow citizens, and sometimes themselves. Carving Up the Globe offers vivid documentation of their handiwork. With hundreds of full-color maps and other images, this atlas illustrates treaties that have determined the political fates of millions. In rich detail, it chronicles everything from ancient Egyptian and Hittite accords to the first Sino–Tibetan peace in 783 CE, the Sykes–Picot Agreement of 1916, and the 2014 Minsk Protocol looming over the war in Ukraine.

Gulfization of the Arab World

Exeter Critical Gulf Series

Edited by Marc Owen Jones, et al.

From projecting ideology and influence, to maintaining a notion of ‘Gulfness’ through the selective exclusion or inclusion of certain beliefs, cultures and people, the notion of Gulfization is increasingly pertinent as Gulf countries occupy a greater political and economic role in wider Middle East politics. This volume discusses the notion of Gulfization, and examines how thoughts, ideologies, way of life and practises are transmitted, changed, and transduced inside and outside the Gulf.

The Presidency of Barack Obama: A First Historical Assessment

Edited by Julian E. Zelizer

Barack Obama’s election as the first African American president seemed to usher in a new era, and he took office in 2009 with great expectations. But by his second term, Republicans controlled Congress, and, after the 2016 presidential election, Obama’s legacy and the health of the Democratic Party itself appeared in doubt. In The Presidency of Barack Obama, Julian Zelizer gathers leading American historians to put President Obama and his administration into political and historical context.
The Military Balance 2018

By The International Institute for Strategic Studies (IISS)

The Military Balance is an authoritative assessment of the military capabilities and defence economics of 171 countries. Detailed A–Z entries list each country’s military organisation, personnel numbers, equipment inventories, and relevant economic and demographic data. Regional and select country analyses cover the major developments affecting defence policy and procurement, and defence economics. The opening graphics section displays notable defence statistics, while additional data sets detail selected arms orders and military exercises, as well as comparative defence expenditure and personnel numbers.

Armed Conflict Survey 2018
