Stylistics 6 volume set

Sage Benchmarks in Language and Linguistics

● Edited by **Masanori Toyota**

Stylistics is a branch of linguistics which studies style, especially in works of literature. It has long fascinated academics working at the interface between language and literature.

It became established in the United Kingdom and the United States in the 1960s and has always been influenced by developments in linguistics, such as structuralism, generative grammar, functional linguistics, pragmatics, feminism, discourse analysis, corpus linguistics, pedagogy, literary theory and cognitive linguistics. Moreover, different schools have different assumptions and backgrounds such as the Russian Jakobsonian school, French structuralism, American Chomskian linguistics, and British tradition of J. R. Firth. Drawing on these disciplines, it has developed methods of analyzing texts and characterizing their stylistic features.

This six-volume collection is organized around research questions that can be investigated from various perspectives and shows major developments and current achievements. It brings together seminal articles from varied sources, making an important guideline for researchers seeking to develop the knowledge of Stylistics, and its continued evolution. Edited by a leading figure in the field, this work covers the multifaceted roots, the most important accesses and approaches of Stylistics, as well as function in other disciplines in an extensive way.

The collection is divided into four parts which cover a wide range of aspects:

Part One: The Development of Stylistics

Part Two: Various Concepts of Stylistics

Part Three: Stylistics of Prose

Part Four: Stylistics of Verse and Drama

About the Author

Whereas previous studies have focused on national literatures in isolation, this volume demonstrates the two-way traffic between British and French conceptions of literary labour.

Shakespeare and Domestic Life: A Dictionary

Arden Shakespeare Dictionaries

By **Sandra Clark**

This dictionary explores the language of domestic life found in Shakespeare's work and seeks to demonstrate the meanings he attaches to it through his uses of it in particular contexts. "Domestic life" covers a range of topics: the language of the household, clothing, food, family relationships and duties; household practices, the architecture of the home, and all that conditions and governs the life of the home. The dictionary draws on recent cultural materialist research to provide in-depth definitions of the domestic language and life in Shakespeare's works, creating a richly rewarding and informative reference tool for upper level students and scholars.

Baking Emily Dickinson's Black Cake

(Houghton Library Publications)
56 pages 2018:07 Harvard U.P.
Paperback 9780674980099 US\$15.00

Dickinson's manuscript recipe for black cake was sent along with a bouquet of flowers to Nellie Sweetser in the summer of 1883. Black cake is a traditional Christmas specialty closely related to the English fruitcake, "blackened" with the addition of burnt sugar syrup or molasses. It was generously spiced with nutmeg, cinnamon, mace, and clove before being wrapped in brandy- or rum-soaked cloth and often aged at least a month. The recipe, though somewhat shocking to a modern reader (19 eggs!), turns out to be remarkably orthodox in its ratios, if not its scale. Fully assembled, the recipe produces batter weighing in excess of twenty pounds. Delve into the history of this majestic cake and explore the story of each ingredient, in the context of Emily Dickinson's nineteenth-century Amherst home, with librarians of Houghton. Each ingredient is accompanied with watercolors by Robin Harney evoking Dickinson's moment in time and moments in the kitchen.

UNIVERSITY OF CHICAGO PRESS

シカゴ版研究論文執筆マニュアル 第9版

A Manual for Writers of Research Papers, Theses, and Dissertations: Chicago Style for Students and Researchers 9th edition

Chicago Guides to Writing, Editing, and Publishing

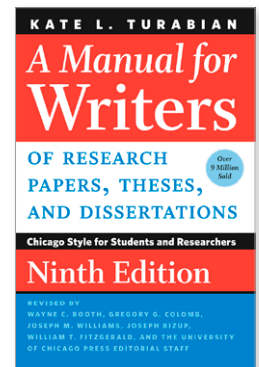

By **Kate L. Turabian**

When Kate L. Turabian first put her famous guidelines to paper, she could hardly have imagined the world in which today's students would be conducting research. Yet while the ways in which we research and compose papers may have changed, the fundamentals remain the same: writers need to have a strong research question, construct an evidence-based argument, cite their sources, and structure their work in a logical way. *A Manual for Writers of Research Papers, Theses, and Dissertations*—also known as “Turabian”—remains one of the most popular books for writers because of its timeless focus on achieving these goals.

This new edition filters decades of expertise into modern standards. While previous editions incorporated digital forms of research and writing, this edition goes even further to build information literacy, recognizing that most students will be doing their work largely or entirely online and on screens. Chapters include updated advice on finding, evaluating, and citing a wide range of digital sources and also recognize the evolving use of software for citation management, graphics, and paper format and submission. The ninth edition is fully aligned with the recently released *Chicago Manual of Style*, 17th edition, as well as with the latest edition of *The Craft of Research*.

Teachers and users of the previous editions will recognize the familiar three-part structure. Part 1 covers every step of the research and writing process, including drafting and revising. Part 2 offers a comprehensive guide to Chicago's two methods of source citation: notes-bibliography and author-date. Part 3 gets into matters of editorial style and the correct way to present quotations and visual material. *A Manual for Writers* also covers an issue familiar to writers of all levels: how to conquer the fear of tackling a major writing project.

Through eight decades and millions of copies, *A Manual for Writers* has helped generations shape their ideas into compelling research papers. This new edition will continue to be the gold standard for college and graduate students in virtually all academic disciplines.
