John Goldsmith and Bernard Laks embark on a uniquely interdisciplinary history of the genesis of linguistics, from nineteenth-century currents of thought in the mind sciences through to the origins of structuralism and the ruptures, both political and intellectual, in the years leading up to World War II. Seeking to explain where contemporary ideas in linguistics come from and how they have been justified, *Battle in the Mind Fields* investigates the porous interplay of concepts between psychology, philosophy, mathematical logic, and linguistics.

Mark Rothko (1903-1970), world-renowned icon of Abstract Expressionism, is rediscovered in this wholly original examination of his art and life written by his son. Christopher Rothko draws on an intimate knowledge of the artworks to present eighteen essays that look closely at the paintings and explore the ways in which they foster a profound connection between viewer and artist through form, color, and scale. The prominent commissions for the Rothko Chapel in Houston and the Seagram Building murals in New York receive extended treatment, as do many of the lesser-known and underappreciated aspects of Rothko's oeuvre, including reassessments of his late dark canvases and his formidable body of works on paper.

Inequality has drastically increased in many countries around the globe over the past three decades. The widening gap between the very rich and everyone else is often portrayed as an unexpected outcome or as the tradeoff we must accept to achieve economic growth. In this book, three International Monetary Fund economists show that this increase in inequality has in fact been a political choice - and explain what policies we should choose instead to achieve a more inclusive economy.

Arne L. Kalleberg examines the impact of the liberalization of labor markets and welfare systems on the growth of precarious work and job insecurity for indicators of well-being such as economic insecurity, the transition to adulthood, family formation, and happiness, in six advanced capitalist democracies: the United States, the United Kingdom, Germany, Japan, Spain, and Denmark. This insightful cross-national analysis demonstrates how active labor market policies and generous social welfare systems can help to protect workers and give employers latitude as they seek to adapt to the rise of national and global competition and the rapidity of sweeping technological changes.

The Fifth Risk: Undoing Democracy

Lewis, Michael

(W.W. Norton)

2018 : 10 256 p. Hardback 9781324002642 US\$16.95

Michael Lewis's brilliant narrative takes us into the engine rooms of a government under attack by its own leaders. At the Department of Energy, where international nuclear risk is managed, it's not clear there will be enough inspectors to track and locate black market uranium before terrorists do. In the Department of Agriculture the funding of vital programs like food stamps and school lunches is being slashed. The Department of Commerce may not have enough staff to conduct the 2020 Census properly. Michael Lewis finds the linchpins of the system - those public servants whose knowledge, dedication, and proactivity keep the machinery running. And he asks them what keeps them up at night.

Rosenbluth, Frances & Shapiro, Ian

(Yale U.P.)

Frances Rosenbluth and Ian Shapiro argue that devolving power to the grass roots is part of the problem. Efforts to decentralize political decision-making have made governments and especially political parties less effective and less able to address constituents' long-term interests. They argue that to restore confidence in governance, we must restructure our political systems to restore power to the core institution of representative democracy: the political party.

Page, Seawright, and Lacombe argue that while political contributions offer a window onto billionaires' influence, especially on economic policy, they do not present a full picture of policy preferences and political actions. That is because on some of the most important issues, including taxation, immigration, and Social Security, billionaires have chosen to engage in "stealth politics." They try hard to influence public policy, making large contributions to political parties and policy-focused causes, leading policy-advocacy organizations, holding political fundraisers, and bundling others' contributions - all while rarely talking about public policy to the media.

Wolfe argues that the core of our problem isn't Trump himself - it's that we are mired in an age of political immaturity. That immaturity is not grounded in any one ideology, nor is it a function of age or education. It's in an abdication of valuing the character of would-be leaders; it's in a failure to acknowledge, even welcome the complexity of government and society; and it's in a loss of the ability to be skeptical without being suspicious.

In this volume, three distinguished scholars draw on critical theory to address our current predicament. Wendy Brown, Peter E. Gordon, and Max Pensky share a conviction that critical theory retains the power to illuminate the forces producing the current political constellation as well as possible paths away from it. Brown explains how “freedom” has become a rallying cry for manifestly un-emancipatory movements; Gordon dismantles the idea that fascism is rooted in the susceptible psychology of individual citizens and reflects instead on the broader cultural and historical circumstances that lend it force; and Pensky brings together the unlikely pair of Tocqueville and Adorno to explore how democracies can buckle under internal pressure.

Both accessible and illuminating, this book explores the continuities between the ways in which Zen was practiced in ancient times, and how it is practiced today in East Asian countries such as Japan, China, Korea, and Vietnam, as well as in the emerging Western Zen tradition.

カール5世の知られざる人生

Emperor: A New Life of Charles V

Parker, Geoffrey

(Yale U.P.)

2019 : 04 400 p. Hardback 9780300196528 US\$35.00

Geoffrey Parker, one of the world's leading historians of early modern Europe, has examined the surviving written sources in Dutch, French, German, Italian, Latin, and Spanish, as well as visual and material evidence. He explores the crucial decisions that created and preserved this vast empire, analyzes Charles's achievements within the context of both personal and structural factors, and scrutinizes the intimate details of the king's life for clues to his character and inclinations. The result is a unique biography that interrogates every dimension of Charles's rule and views the world through the Emperor's own eyes.

アーサー王：伝説の作り方

King Arthur: The Making of the Legend

Higham, Nicholas J.

(Yale U.P.)

2018 : 10 336 p. Hardback 9780300210927 US\$32.50

According to legend, King Arthur saved Britain from the Saxons and reigned over it gloriously sometime around A.D. 500. Whether or not there was a "real" King Arthur has all too often been neglected by scholars; most period specialists today declare themselves agnostic on this important matter. In this erudite volume, Nick Higham sets out to solve the puzzle, drawing on his original research and expertise to determine precisely when, and why, the legend began.

Voices of Komagata Maru: Imperial Surveillance and Workers from Punjab in Bengal

Chattopadhyay, Suchetana

Tulika Books (Columbia U.P.)

2018 : 11 192 Hardback 9788193401583 US\$33.00

Histories of the Komagata Maru or the Ghadar Movement offer rewarding perspectives on Punjabi Sikh migrants, but fail to adequately investigate why the ship was brought to Bengal; why overwhelming locally organized imperial vigilance was imposed on ships that arrived soon afterward; and the extent to which the operation of the repressive colonial state apparatus influenced the intersections of anticolonial strands in Calcutta and its surroundings during 1914-15. This monograph traces this early wartime clash of positions and the organized postwar transmission of the memory of the Komagata Maru as a symbol of resistance among the Sikh workers in the industrial centers of southwest Bengal.

The Gateway to the Pacific: Japanese Americans and the Remaking of San Francisco

Oda, Meredith

Historical Studies of Urban America (Univ. of Chicago Pr.)

2018 : 12 304 p. Hardback 9780226592602 ¥14,180 Paperback 9780226592749 ¥4,730

In the decades following World War II, municipal leaders and ordinary citizens embraced San Francisco's identity as the "Gateway to the Pacific," using it to reimagine and rebuild the city. The city became a cosmopolitan center on account of its newfound celebration of its Japanese and other Asian American residents, its economy linked with Asia, and its favorable location for transpacific partnerships. The most conspicuous testament to San Francisco's postwar transpacific connections is the Japanese Cultural and Trade Center in the city's redeveloped Japanese-American enclave. Focusing on the development of the Center, Meredith Oda shows how this multilayered story was embedded within a larger story of the changing institutions and ideas that were shaping the city.

A New Hope for Mexico: Saying No to Corruption, Violence, and Trump's Wall

Lopez Obrador, Andres Manuel

(Pluto Pr.)

2018 : 10 224 p. Paperback 9780745339535 £12.99

A progressive politician often compared to Jeremy Corbyn and Bernie Sanders, AMLO's campaign galvanised people across Mexico. Here, in his own words, AMLO paints a picture of a country plagued by cronyism and neoliberalism, and declares the dawn of a new era, vowing to uplift poor, indigenous communities and provide jobs and welfare for all. As Trump publicly derides the Mexican people as 'drug dealers, criminals and rapists', AMLO is critical of Mexico's capitulation to the US.
